

YOUR MOVING CHECKLIST

One step at a time!

OUT-OF-STATE

- Review moving company options (Pods, U-haul, Full Service, etc)
- How are we travelling? By Car, Plane, both?
- Pets? Do they need different accommodations to travel?
- Consolidate medical/dental info to prep to transfer to new area
- Cancel local subscriptions! Car washes, gym memberships, etc. that can be handled easier while in-state

PACKING TIPS

- Search FB marketplace and other forums for people getting rid of moving boxes--it adds up!
- Clear vs Non containers: clear allows you to see all that is in it! If you prefer not to show, use the others!
- Essentials: Separate what you know you need, and be real! The lighter you have to carry with you, the better!

OVERVIEW

- Finalize Timeline! To the best of your ability, down to the daily tasks!
- Are we selling your previous home? Coordinate living situation until closing on current home.
- Job transfers--employment plans in general. Is time off needed?
- Selling/Donating: Consider getting rid of old/unused stuff, it helps and gives you a FRESH start!!

PERSONAL TOUCH

- Going away party? Let's see if someone wants to host for you all!
- Last second bucketlist--in the midst of the craziness, try to knock out something you wanted to do locally that you never did!
- Time capsules: Create one for you and your family to open down the line!

FLIP →

FINANCES

- A typical move can cost anywhere from \$2-10K (out-of-state). Sometimes more! Set/save a budget as early as possible.
- Remember, you are closing on a new home. So DO NOT make any large purchases before running it by your team. It could jeopardize your home!

FINAL CLEARING

- Check every corner and closet of your old home! The next people may be great, but you never know if they'd be kind enough to send you something you forgot.
- Tie-down check: If you're driving with packed goods, do a final check on if everything is strapped/evenly distributed and valuables are secure.
- Weather/commute: Plan around any bad weather forecasts, major events in cities you are traveling through, etc. Some things are out of your control, but you never know unless you check.
